

Mechanische Weberei Bohemia s.r.o.  
presents the brand new cinema screen

# POLAR 3D 1,7

With its gain of 1,7 it is developed for 3D projection using polarized light as well as for 2D projection.

A unique formulation leads to a very wide viewing angle, the HGA is 36 degrees, which minimizes usual hot spot effects of silver screens.

Available non perforated, standard and mini perforated.

Go for the POLAR experience ...
